

Accessibility

Sprint 6 fix list

1. SEP - Accessibility - [Cookie notice continue button, context extension](https://scotent.leankit.com/card/829611697)(https://scotent.leankit.com/card/829611697)
2. SEP - Accessibility - [Users were unsure what fields were mandatory](https://scotent.leankit.com/card/831026973)(https://scotent.leankit.com/card/831026973)
3. SEP - Accessibility - [Checkbox was a bit small for motor impaired users using a joystick](https://scotent.leankit.com/card/831030274)(https://scotent.leankit.com/card/831030274)
4. SEP - Accessibility - [Desktop mobile menu is being fed back to assistive tech on desktop mode](https://scotent.leankit.com/card/829592114)(https://scotent.leankit.com/card/829592114)
5. SEP - Accessibility - [No users noticed the APPLY button at top right of filter screen \(MOBILE\)](https://scotent.leankit.com/card/831033681)(https://scotent.leankit.com/card/831033681)
6. SEP - Accessibility - [Mobile search filter focus lost](https://scotent.leankit.com/card/829584216)(https://scotent.leankit.com/card/829584216)
7. SEP - Accessibility - [Users were confused by label "Filters" on MOBILE version of search listings](https://scotent.leankit.com/card/831032569)(https://scotent.leankit.com/card/831032569)
8. SEP - Accessibility - [Users were confused by term "Filter by Keyword". This resulted in a variety of issues including, expecting a dropdown & Filter Bubbles](https://scotent.leankit.com/card/831025570)(https://scotent.leankit.com/card/831025570)

9. SEP - Accessibility - [Users had repeated GESTALT issues around which listing the CTA Find Out More button was associated to](https://scotent.leankit.com/card/831027057)(https://scotent.leankit.com/card/831027057)
10. SEP - Accessibility - [Footer text was a bit small for motor impaired users using a joystick](https://scotent.leankit.com/card/831026771)(https://scotent.leankit.com/card/831026771)

Details

1. SEP - Accessibility - [Cookie notice continue button, context extension](https://scotent.leankit.com/card/829611697)(https://scotent.leankit.com/card/829611697)

Clear your cookies before loading the above link.

The cookie banner that appears has a continue CTA. Visually this makes sense, as the user can see it's linked to the cookie notice, however for assistive tech, specifically braille/screen readers who can't visually digest the layout association with the cookie notice, it might not be clear from the text "Continue" what this link will do.

We can simply add an accessible span, which will extend the text of the link to assistive techs only (not visually)

e.g. ` and close cookie notice `

2. SEP - Accessibility - [Users were unsure what fields were mandatory](https://scotent.leankit.com/card/831026973)(https://scotent.leankit.com/card/831026973)

Issue

Users were unsure what fields were mandatory

Proposed Fix:

Fields need indicators to show if they are Mandatory

Notes:

Standard ASTERIX was expected by users

3. SEP - Accessibility - [Checkbox was a bit small for motor impaired users using a joystick](https://scotent.leankit.com/card/831030274)(https://scotent.leankit.com/card/831030274)

Issue:

Checkbox was a bit small for motor impaired users using a joystick

Proposed Fix:

Increase size of checkbox to accommodate users with motor control issues

4. SEP - Accessibility - [Desktop mobile menu is being fed back to assistive tech on desktop mode](https://scotent.leankit.com/card/829592114)(https://scotent.leankit.com/card/829592114)

On desktop, there is an sr-only span with the inner HTML text of "Open mobile navigation menu". This should only be visible to assistive techs on mobile mode. Please add aria-hidden="true" if you are not in mobile mode.

<http://prntscr.com/ngoqi7>

5. SEP - Accessibility - [No users noticed the APPLY button at top right of filter screen \(MOBILE\)](https://scotent.leankit.com/card/831033681)(<https://scotent.leankit.com/card/831033681>)

Issue:

No users noticed the Apply button at top right of filter screen (MOBILE)

Proposed Fix:

On MOBILE change "X Apply" at top right of screen to a primary CTA button at bottom centre of form

6. SEP - Accessibility - [Mobile search filter focus lost](https://scotent.leankit.com/card/829584216)(<https://scotent.leankit.com/card/829584216>)

On mobile select the filter option

At this point focus should be set on filter by keyword, currently it's not in the model window that appears at all.

See: <http://prntscr.com/ngny9a>

7. SEP - Accessibility - [Users were confused by label "Filters" on MOBILE version of search listings](https://scotent.leankit.com/card/831032569)(<https://scotent.leankit.com/card/831032569>)

Issue

Users were confused by label "Filters" on MOBILE version of search listings

Proposed Fix:

On MOBILE change "Filters" to "Search & Filter"

Notes:

This is the black box/button that hides Filter options on mobile design

8. SEP - Accessibility - Users were confused by term "Filter by Keyword". This resulted in a variety of issues including, expecting a dropdown & Filter Bubbles(<https://scotent.leankit.com/card/831025570>)

Issue

Users were confused by term "Filter by Keyword". This resulted in a variety of issues including, expecting a dropdown & Filter Bubbles

Proposed Fix:

"Filter by keyword" to be changed to "Search"

9. SEP - Accessibility - Users had repeated GESTALT issues around which listing the CTA Find Out More button was associated to(<https://scotent.leankit.com/card/831027057>)

Issue

Users had repeated gestalt issues around which listing the CTA Find Out More button was associated to

Proposed Fix:

Reduce padding above "Find Out More" CTA button

Notes:

This makes it more obviously visually grouped with listing above it.

10. SEP - Accessibility - Footer text was a bit small for motor impaired users using a joystick(<https://scotent.leankit.com/card/831026771>)

Issue

Footer text was a bit small for motor impaired users using a joystick

Proposed Fix:

Increase clickable area around footer text to accommodate motor control issues

Notes:
